

DOL Workers' Compensation Programs

Coal Mine Workers' Compensation

Maxim Healthcare Services has been making a difference in patients' lives across the nation for more than 30 years. Our team of nurses, therapists and home health aides help patients of all ages maintain their quality of life in the comfort of home.

We provide hourly private duty nursing, skilled nursing, therapy, personal care and custodial services to eligible claimants under the Coal Mine Workers' Compensation program. Contact your [local Maxim office](#) to learn more about your benefits and available services.

Qualifications

The Division of Coal Mine Workers' Compensation, or [Federal Black Lung Program](#), administers claims filed under the Black Lung Benefits Act. The Act provides compensation to coal miners who are totally disabled by pneumoconiosis arising out of coal mine employment, and to survivors of coal miners whose deaths are attributable to the disease. The Act also provides eligible miners with medical coverage for

Some of our areas of expertise include:

- Assisting in activities of daily living
- Ventilator and tracheostomy care
- Feeding tube care and management
- Seizure management
- Oxygen management
- TPN infusion
- Medication management
- Educating and training family

The Maxim advantage

- 24-hour service, including weekends and holidays
- Certified by the Accreditation Commission for Health Care
- Robust compliance program
- Matching patients with ideally-suited caregivers

Maxim's Nationwide Footprint

Maxim Healthcare Services specializes in long-hour shift nursing, personal caregiving, home healthcare visits and therapies. We place added focus on catastrophic employment-related injuries, such as spinal cord and traumatic brain injury, and occupational diseases. Our RN clinical supervisors partner with each patient's primary care physician to generate a customized plan of treatment. This allows the patient, caregivers, and family members to join forces on the road to recovery.

U.S. Department of Labor Programs Covered:

- Federal Employees: Federal and postal workers around the world for employment-related injuries and occupational diseases (DFELHWC)
- Department of Energy: Current or former employees (or their survivors) of the DOE who were diagnosed with a disease as a result of exposure to radiation, beryllium or silica while employed at covered facilities (DEEOIC)
- Black Lung: Eligible miners with medical coverage for the treatment of lung diseases related to pneumoconiosis (DCMWC)
- Longshore and Harbor Workers: Individuals with land-based, maritime employment injuries (DFELHWC)
