

Patient Referral Checklist

At Maxim Healthcare, we work hand-in-hand with discharge planners and skilled nursing facilities, so every patient experiences a smooth and well-coordinated transition of care. Our goal is to support a seamless process that reduces unnecessary complications and hospital readmissions, prioritizing the well-being of those we serve.

To help us provide the best care possible, we kindly ask you to complete the checklist below. This will allow our care coordination team to fully understand the patient's current needs and provide the thoughtful, compassionate support they deserve.

Thank you for trusting us to be a part of this important step in their care journey. Together, we're here to make a difference.

Does the patient need care from a skilled nurse or CNA?

- ☐ Skilled Nurse (care examples: diabetic management, insulin injections, wound care, farrow wrap application, catheter changes, etc.)
- ☐ CNA (care examples: transfers, bathing, perineal care, catheter care, repositioning, range of motion, etc.)

How many visits per week does the patient need?

- ☐ 1-2 visits
- ☐ 3-4 visits
- ☐ 5-6 visits
- ☐ Daily

How long does the patient need care?

- ☐ 1-4 weeks
- ☐ 1-6 months
- ☐ 6-12 months
- ☐ More than a year

Does the patient have Medicaid?

- ☐ Yes
- ☐ No

Others first. Always.

For more than 35 years, our compassionate clinical staff members have worked tirelessly to enhance the quality of life for individuals in our communities. From private duty nursing to personal and behavioral care, we deliver services that empower individuals with chronic and acute conditions to live with dignity and independence.
